metallo-sulfur cluster assembly

iron-sulfur cluster assembly [2Fe-2S] cluster assembly

triglyceride metabolic process

triglyceride biosynthetic process

negative regulation of triglyceride metabolic process
regulation of triglyceride metabolic process
acylglycerol biosynthetic process
neutral lipid biosynthetic process
negative regulation of lipid metabolic process
negative regulation of lipid biosynthetic process
negative regulation of carbohydrate metabolic process
regulation of gluconeogenesis
negative regulation of small molecule metabolic process

regulation of gluconeogenesis negative regulation of small molecule metabolic process
regulation of carbohydrate biosynthetic process
hexose biosynthetic process
negative regulation of gluconeogenesis
entrainment of ci

monosaccharide biosynthetic process

gluconeogenesis

entrainment of circadian clock entrainment of circadian clock by photoperiod

regulation of anoikis

regulation of circadian rhythm

photoperiodism

regulation of myotube differentiation

regulation of striated muscle cell differentiation

regulation of sodium ion transport

anoikis

number of genes
