triglyceride metabolic process

acylglycerol metabolic process

triglyceride biosynthetic process

acylglycerol biosynthetic process regulation of triglyceride biosynthetic process

negative regulation of triglyceride metabolic process

neutral lipid biosynthetic process

negative regulation of lipid biosynthetic process

negative regulation of lipid metabolic process

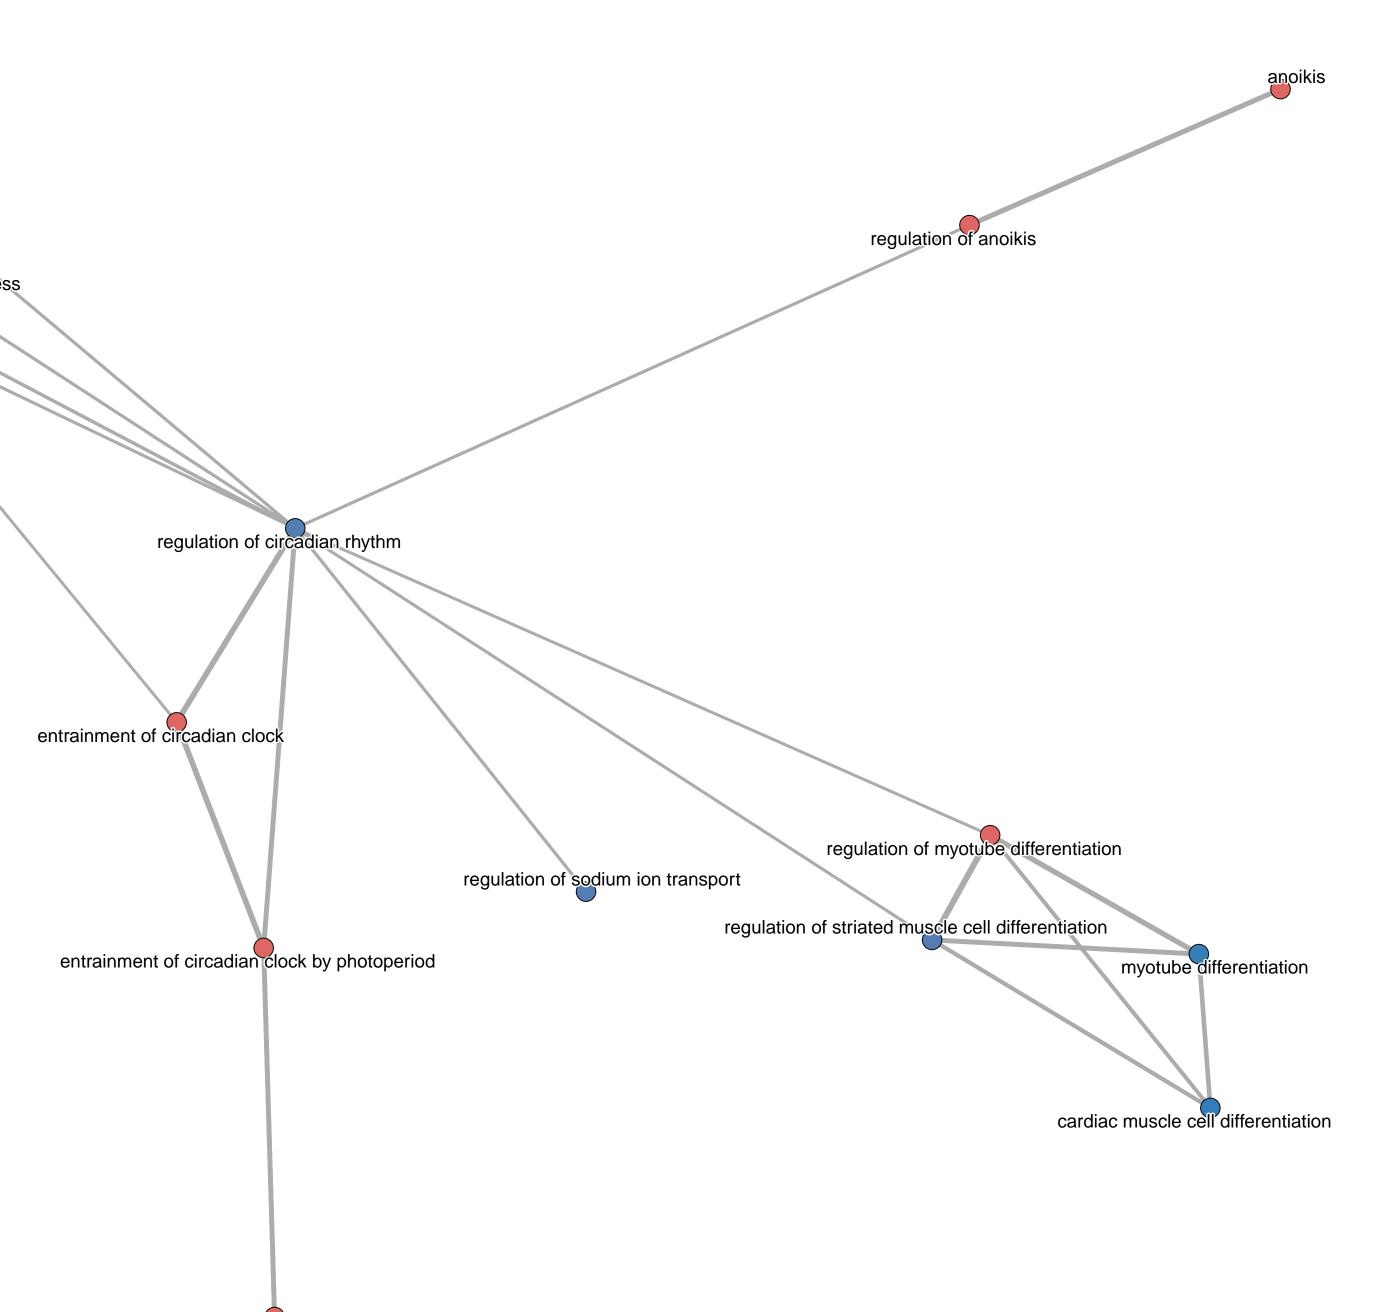

negative regulation of gluconeogenesis

regulation of glucose metabolic process
hexose biosynthetic process
negative regulation of carbohydrate metabolic process monosaccharide biosynthetic process regulation of carbohydrate biosynthetic process

regulation of gluconeogenesis

negative regulation of small molecule metabolic process

gluconeogenesis
