

triglyceride metabolic process

acylglycerol metabolic process

triglyceride biosynthetic process

negative regulation of triglyceride metabolic process regulation of triglyceride biosynthetic process

regulation of triglyceride metabolic process acylglycerol biosynthetic process

negative regulation of lipid metabolic process

negative regulation of lipid biosynthetic process

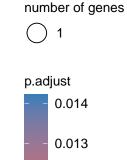

negative regulation of carbohydrate metabolic process

regulation of carbohydrate biosynthetic process
regulation of glucose metabolic process hexose biosynthetic process

negative regulation of small molecule metabolic process negative regulation of gluconeogenesis

monosaccharide biosynthetic process

gluconeogenesis
